Love your school lunch!

Our PhunkyFoods Healthy Lunch message highlights to children the importance of choosing a healthy, well balanced school lunch; whether that's a hot school meal or a packed lunch brought in from home.

School meals & the School Food Standards

In July 2013 the School Food Plan was published by the Department for Education. As part of that plan a new set of standards for all foods served in schools was launched and became mandatory from January 2015. In September 2014 universal free school meals (UFSM) were introduced to all infant pupils across England. Evidence has repeatedly shown that school meals are of higher nutritional quality than packed lunches, and universal free school meals do appear to improve primary school educational attainment - so why not give them a try? If your child(ren) hasn't tried it already, or it's been a while since they tried school meals, perhaps it's time to give them a go?

Packed lunches

Many parents opt to send their child(ren) to school with a packed lunch. The first thing to consider is whether or not your school has a packed lunch policy, and these come in all sorts of shapes and sizes, but they are generally put in place for very positive reasons. For example:

- to promote consistency between packed lunches and foods provided by school
- to make a positive contribution to children's health, or;
- to encourage children to be calmer and on-task during the afternoons.
